

Thermo Fisher Scientific
Global Quality Affairs/Regulatory Affairs
168 Third Avenue | Waltham, MA 02451

Dear Valued Customer:

Thank you for your inquiry regarding the Packaging and Packaging Waste Regulation (PPWR), Regulation (EU) 2025/40 and our approach to meeting these requirements

The PPWR is intended to reduce packaging waste and enhance the circularity of packaging across the EU. As implementation progresses and requirements become applicable over time via secondary legislation, we are working across our supply chain and businesses to assess relevant obligations and support compliance with applicable requirements.

Thermo Fisher Scientific recognizes its product compliance, regulatory and stewardship responsibilities and remains committed to monitoring applicable regulations, evaluating their potential impact, and addressing relevant obligations in a diligent and timely manner.

Please do not hesitate to contact us at productcompliance@thermofisher.com for additional information.

Regards,

Mark Pearson
Director, Product Legislation Compliance
